

Dear Partners,

It is our great pleasure to share with you a defining moment in the story of Veteco.

As of July 2026, Veteco Interservices has become part of Cymedica Group, one of the leading regional groups dedicated to animal health in Central and Eastern Europe, following the acquisition of a majority stake in the company by Cymedica Vet Development. The founding family remains a shareholder and will continue to be directly involved in the leadership and development of the company, ensuring continuity of the relationships and values that have defined Veteco for the past twenty-seven years.

For us, this is more than a transaction. It is an investment in the future of Veteco and in the long-term relationships we have built together with you. It marks the beginning of a new stage that will strengthen the company's position in the Romanian market and create the conditions for accelerated growth, supported by the experience, resources and expertise of a strong regional group.

This integration also represents recognition of the value that Veteco has built together with its partners and reflects Cymedica Group's confidence in our team, our reputation and the long-term potential of the Romanian veterinary market.

Since 1999, Veteco has built its reputation as one of Romania's most respected professional distributors of veterinary medicines, vaccines and animal health products. Over these twenty-seven years, we have had the privilege of building long-lasting relationships with thousands of partners across the country, from veterinarians, clinics and hospitals to veterinary pharmacies, farms, specialised retailers and many other professionals dedicated to animal health and welfare. This reputation, built on the competence of our people, integrity and the trust you have placed in us, was one of the key reasons behind Cymedica's decision to invest in Veteco and in the Romanian veterinary market.

Founded in the Czech Republic, Cymedica Group has more than three decades of experience and today is one of the leading regional animal health groups, operating in eight countries across Central and Eastern Europe, with integrated activities in distribution, logistics, production, quality control, regulatory affairs and technical services. Through this integration, Cymedica strengthens its presence in Romania, while Veteco gains access to resources, expertise and opportunities that will support its development in the years to come.

For you, the most important message is a simple one: **continuity.**

You will continue working with the same Veteco team, the same sales representatives and the same points of contact you have always known.

There will be no changes to our existing commercial relationships. Your agreements, contacts and our commitments remain unchanged, while the integration process will be carried out gradually, maintaining the same high standards of professionalism, responsibility and service quality that have always characterised Veteco.

At the same time, becoming part of Cymedica Group will create new opportunities for our collaboration through greater stability, stronger development capabilities, access to the know-how of an experienced regional group, a broader portfolio of products and services, and continued investment in our people and infrastructure. Above all, we are united by the values

we share: professionalism, responsibility, integrity and a constant commitment to animal health and welfare.

In the coming years, we will continue investing in the development of our portfolio, the quality of our services and the strengthening of our partnerships, ensuring that this new stage brings tangible benefits to the veterinary community in Romania.

An essential part of this new chapter is the continuity of our leadership. Veteco will continue to be led by Dr. Sorin Badea, founder of the company, as Country Director and shareholder, alongside Mr. Șerban Badea, shareholder and representative of the new generation actively involved in Veteco's long-term strategic development. Together with the entire Veteco team and the specialists of Cymedica Group, we are committed to building a stronger, more efficient organisation, fully prepared for the future.

The relationships we have built with you remain our most valuable asset. Becoming part of Cymedica Group does not change the values that have defined us over the past twenty-seven years; it strengthens them. We remain fully committed to being the same trusted, professional and approachable partner you have always known.

Thank you sincerely for the trust you have placed in us over the years. We are fully committed to ensuring that this new chapter further strengthens the partnership we have built together.

We look to the future with confidence and are convinced that, together, we will build the next chapter in Veteco's development, guided by the same mission that has inspired us since 1999: contributing through professionalism, innovation and strong partnerships to the advancement of veterinary medicine in Romania.

With our highest regards,

Alexander Brányik  
Chief Executive Officer  
Cymedica Vet Development

Dr. Sorin Badea
